

TE Air Accessories

Turnkey Mobility and Workflow for Handheld Ultrasound

Clinicians need flexible, reliable and ergonomic configurations that support evolving procedural demands.

The TE Air ecosystem can be paired with two purpose-built accessories to create a complete, mobile and efficient bedside ultrasound workflow for hospital and out-of-hospital care.

These accessories enhance usability without adding complexity, allowing clinicians to focus on what matters most, delivering high-quality care.

Apple iPad 11" (11th Gen, A16)
